MOBILE PLANT INSURANCE »

UANZ

» UAA understands the importance of protecting your assets and mobile plant and machinery.

» Company Outline

The company that is now UAA was founded in 1972 in Newcastle NSW where our current head office and administration centre is based. In support of our Australia and New Zealand client base, we have additional offices in Sydney, Melbourne, Brisbane, Perth, Adelaide and Auckland.

UAA became an Underwriting Agency in 1988 and in 2008, UAA's market leading products became 100% underwritten by QBE Insurance, the largest Australian owned international insurance and reinsurance group with over 125 years' experience.

UAA has also expanded it's operations into the Latin American and Asian markets, leveraging the global reach of the QBE Group.

The Industrial Special Plant [ISP] product is now sold in Chile, Brazil, Mexico, Columbia, Ecuador, Puerto Rico, Hong Kong and Macau.

» Solid Service

Our focus is on developing long term relationships built on mutual respect and reliability. As a client of UAA you can expect:

- » Innovative products and services
- » Specialist product knowledge
- » Prompt claims handling

» Products

UAA continues to develop innovative insurance solutions for the mobile plant industry.

Our industry specific insurance products have been designed to meet the needs of the Australian and New Zealand plant insurance market and include:

» Industrial Special Plant (ISP)

» ProCon

Industrial Special Plant (ISP)

ISP is designed to protect all types of plant and machinery from the smallest post hole digger to the largest fixed or mobile crane. The UAA ISP product is the result of ongoing research, development and commitment by our professional team of experts.

ProCon

ProCon incorporates 5 key cover options into one package providing Broadform Liability, Professional Civil Liability, Directors' and Officers' Liability, Statutory Liability and Employment Practices Liability. ProCon provides a simple solution which has been specifically designed for UAA customers working and operating mobile plant and machinery.
